LIBRARY REPORT

To the Citizens of Conway:

At the Conway Public Library, Miss Pollard reports that the total circulation of books and magazines was 21,265 volumes. Approximately one-tenth of this circulation was non-fiction. The outstanding need of the library as regards books, is a larger selection of current editions of modern science, and more books for the juvenile readers.

This year the library received valuable gifts from Clarence E. Eastman, E. E. Hastings, Rev. Edward P. St. John, Mrs. A. L. Reid, Sidney S. Robins, Harold Cloutman, Herbert Blackwell, Gertrude H. Shurtleff, Mrs. R. E. Chamberlain and the Conway Woman's Club.

Of particular value and constantly increased interest to the patrons of the library is the excellent collection of periodicals in the Reading Room.

This year the exhibits at the library were as follows: February—Reproductions of Modern Paintings loaned from the State Library at Concord. April—A Craftsman's Exhibit from the two CCC groups at Camp Hemenway, in Tamworth, the Swift River Camp in Albany. November —The Federal WPA Art Project exhibited work of New Hampshire artists. This included portraits, landscapes, wood cuts and an excellent group of watercolors.

At the Center Conway Free Public Library, Mrs. Snow reports the total circulation 3851. Mr. S. W. Norwood gave thirty-eight boooks to this library. This year, for the first time, the duplicate pay system is being used. It makes available more books of modern fiction for the patrons of this library.

The creditable service that the town libraries give to Conway is due largely to the efficient work of the Librarians.

More money invested in books would help immeasurably to make this service better. "Books are the fundamental tools in education and the only complete storehouses of knowledge."

Respectfully submitted,

RUTH A. KENNETT,
Secretary-Treasurer,
Conway Library Trustees.

REPORT OF SUPERINTENDENT

To the School Board and Citizens of Conway:

During the summer the grammar school buildings at Conway, Center Conway and North Conway were painted on the outside. This was the principal item of repairs and the cost was within the limit of the $1,000 appropriation for special repairs made at the last March meeting. There

were other minor repairs including a necessary job on the front of the primary school at Conway, some work on the floor and underpinning at East Conway, and the use of the sander on seats and desks in different schools. So far as we know there are no emergency needs for repairs. The Redstone building should be painted soon, grading should be done at Center Conway and the West Side so that pupils may get to the building during the spring thaws, and the high school should have more seats. In fact, most of the seats in all schools except the high school are old, non-adjustable and of all types of antiquated models. A program for gradual replacement year by year would be good business.

The budget presented by the school board has been studied in detail and calls for an appropriation of $47,450. This is $1,434 less than last year's budget.

A new item of income appears this year from the state equalization fund. For the first time since 1926 Conway qualifies for state-aid and next December will receive $3,405.00 which is being used to reduce the budget assessment. The purpose of this grant is to enable the district to maintain its elementary schools on the level of state-wide minimum standards. In complying with the requirements of the state we shall be able to adjust some inequalities of administrative detail.

The district will need to raise $1,000.00 for tuition in Fryeburg Academy and $775.00 for insurance. This insurance is being rearranged so that the amount to be raised each year will be more nearly the same each year.

Since the new train schedule of the Boston and Maine railroad went into effect, there have been suggestions that the high school transportation could be handled better by the use of busses. Certainly the loss of the late afternoon north-bound train has been keenly felt.

However, the school board several years ago made a detailed and careful study of the question of bus transportation and found at that time that bus transportation

would be much more costly and not feasible. There are, however, some new factors in the present situation and it is correct to say that a plan could be worked out whereby a two-session high school could be served by two busses. Educationally a two-session school is desirable. There is, of course no data on the expense of such an arrangement over a three- or five-year period. Such a change would involve the interests of the several parts of the township and would be so radically different that it could not be recommended without a thorough study of its cost and its general desirability. If there were any serious thought on the part of citizens that the matter should be studied further, the appointment of a committee to work with the school board would be in order. From my knowledge of the various angles of the problem, I should counsel against haste in making any change.

Every year the responsibility of the school to society and to the state is more and more evident. It goes without saying that the school must teach reading, writing, arithmetic and history, but this is only a part of the job. Unless the next generation is qualified for self-government, democracy in America will disappear. It is imperative that teachers be not only technicians in the art of teaching but that they sense the higher objectives of clear thinking, obedience to law, and moral integrity. There are so many influences today which tend to lawlessness and disrespect for authority, government and the Constitution, that teachers need all help and cooperation in their effort to provide a worthy citizenry for the future.

Respectfully submitted,

JOHN H. FULLER
Superintendent.

REPORT OF SCHOOL NURSE

Mr. John H. Fuller,
Superintendent of Schools:

The following is a summary of the school nurse work for the current year to date:

Number of children examined	430
Number of children vaccinated	430
Number of defective teeth	128
Number of defective vision	6
Number of defective speech	3
Number of diseased tonsils	52
Number of schools visited	9
Number of visits to schools	360
Number of visits to homes	450

Defects Corrected

Dental	102
Vision	11
Diseased tonsils	9

The Rotary Club and Red Cross Chapter have aided very generously in financing some of the physical defects, particularly those of vision, which is very much appreciated by the parents and children.

A Toxoid Clinic has been planned for school children who have never been immunized against diphtheria, to be held in the spring. Fortunately, diphtheria is almost unknown to us, but we can control it only by the use of Toxoid and we hope for whole-hearted response from the parents.

Respectfully submitted,

HARRIET M. CURREN.
